PUBLIC NOTICE

The Lands & Natural Resources Department is happy to announce that the Huu-ay-aht First Nations (HFN) is offering a Lottery for one Elk in the fall of 2013. The harvest area will be in the Klanawa Watershed which is within the Maa-nulth Wildlife Harvest Area, Elk Hunt Zone 1-03B-Klanawa.

Applications will be accepted October 1, 2013 to October 11, 2013. The HFN Elk season will run October 12, 2013 to March 31, 2014.

Criteria for eligibility for this draw are:

- Must be a Huu-ay-aht Citizen enrolled in the Maa-nulth Treaty,
- Must have a current Possession & Acquisition Licence (PAL) or FAC,
- Must have a valid Huu-ay-aht Harvesting Card,
- The Maa-nulth Harvesting card must be checked off for hunting,
- You must have passed and have a certificate for the B.C. Hunter Training Program. If you were over the age of 19 on the Effective Date of Treaty (April 1, 2011), you are exempt from this requirement.

As outlined in the Maa-nulth Wildlife Harvest Plan, all Maa-nulth Nations have signed off on a “herd growth” approach to management (as opposed to a herd reduction or herd maintenance approach). This **means the target will be 'spike bulls'** since about 50% of spike bulls survive their first winter when they leave the protection of the cows. Bulls generally lead solitary lives in the winter, while the cows stay together and protect the young.

The successful applicant of this lottery must also agree to:

1. Fill out a Maa-nulth Wildlife Harvest Form, which includes information such as effort, date of harvest, location & sex,
2. Collect and provide to the HFN the front incisor tooth from the killed elk, for age and condition assessment,
3. Gift one hind quarter to the HFN and drop off at custom cut game processor for butchering, with the Tyee Ha'wiih receiving a prime cut (roast).

The winning hunter must also understand that a wounded animal which is not recovered is considered a kill and the hunt is over. This measure is designed to ensure responsible harvesting and promote the growth of local elk herds.

I would like to remind all HFN citizens to report the date, location and sex of all elk sightings.

Respectfully,

Larry Johnson
Director of Lands & Natural Resources
Huu-ay-aht First Nations
