

We are continuing with our comprehensive outreach and support to Huu-ay-aht citizens including employment coaching, student support, tutoring, cultural support counselling, supporting students through ITA processes and adult basic education, driver licence, and first aid training.

The following employment and training engagement sessions are scheduled for June to identify citizens interested in training:

<b>Vancouver</b>	June 12	5 – 9 p.m.
<b>Victoria</b>	June 13	5 – 9 p.m.
<b>Nanaimo</b>	June 18	5 – 9 p.m.
<b>Port Alberni</b>	June 19	5 – 9 p.m.
<b>Anacla</b>	June 20	5 – 9 p.m.

In the weeks to come, stay tuned for more information on locations.

### ENVIRONMENT AND REGULATORY

Our sacred principles and commitment to environmental stewardship continue to be at the forefront, and all activities undertaken are done in a way that respects our values and will sustain our people for generations to come. Huu-ay-aht and Steelhead continue to work to achieve a world-leading standard of environmental and regulatory management for the Kwispaa LNG project.

### WATERSHED RESTORATION

We have developed and are implementing a renewal framework that aligns to Huu-ay-aht's vision for watersheds and economic development. The framework identifies the short-term and long-term steps to be taken to revitalize the Sarita and Pachena watersheds to support fish and wildlife populations and cultural values for present and future generations

Huu-ay-aht Executive Council established the Uu-ah-thluk Watershed Renewal Technical Working Group in May of 2017. The Working Group is led by Robert Bocking of LGL and provides technical oversight to the Watershed Renewal Program.

During 2017, 11 citizens and three family members were employed by LGL and Meridian Forest Services Ltd to work on Watershed Renewal activities.

## Kwispaa LNG

“Today, I believe that First Nations, more than ever, are being included into the economic mainstream in Canada. Through the Co-Management of the Kwispaa LNG project, we are ushering in a new time where First Nations, private sector, and various orders of government are participating together to establish a new model for success based on mutual respect, economic reconciliation, and world leading environmental standards.”

**Chief Robert Dennis**  
*Executive Council*  
*Huu-ay-aht First Nations*
