

Key Benefits of Further TFL 44 LP Investment

Why we are seeking your approval at the Special People's Assembly

This investment supports HUU-AY-AHT's long-term vision to re-assert jurisdiction over the ʻāhauuʻi of the HUU-AY-AHT ʻĀWĪIĪ (territory).

- Decisions about this investment have been guided by ʻĀWĪIĪ Council.
- Treaty has provided the tools to enable this transaction.
- This is the only opportunity for current and future generations to re-assert our jurisdiction over activities on 91% of ʻāhauuʻi of the HUU-AY-AHT ʻĀWĪIĪ.

3 Long-Term Benefits

1

Self-Determination

Increased say by HUU-AY-AHT over activities on 91% of ʻāhauuʻi of the HUU-AY-AHT ʻĀWĪIĪ.

2

TFL 44 Jobs

Create 50+ full-time, well-paid, long-term forestry jobs both on the land and in the office (including forestry contracts over time).

3

Revenue

Provide for a minimum targeted annual dividend to HUU-AY-AHT of \$5M+ per year (this is a long-term goal after all loans are paid off).

This is an opportunity for HUU-AY-AHT to have more control over our ʻāhauuʻi.

Other Benefits

Greater influence at the TFL 44 GP board

- **How:** At 28% - 3 out of 7 Huumiis representatives (versus currently 1 out of 3 at 7%) will be at the table when forest management decisions are made affecting ʰahuuʰi of the HUU-ay-aht ʰawiiʰ.
- **What this means:** We can make sure our forestry principles are applied on our lands.

Increased financial returns

- **How:** Through increased Huumiis ownership interest.
- **What this means:** HUU-ay-aht financial returns (from 7% - 35%) to support further programs and services for HUU-ay-aht citizens.

Help us diversify our economy

- **How:** Ensures we are not relying on only tourism and hospitality (for example) to provide revenue for the Nation.
- **What this means:** Over time, the deal will provide 50+ good-paying jobs, training, and business opportunities for HUU-ay-aht citizens and family members, including expanding the opportunity for our citizens to become entrepreneurs.

Lays foundation for considering step 2 of the investment

- **How:** If approved by citizens, in step 2 Huumiis would purchase a majority interest and say over TFL 44 LP; this cannot be achieved without approving the 28% being considered now.
- **What this means:** An additional 16% (which would bring Huumiis' interest up to 51%; a majority interest). This step would also be brought to citizens at a People's Assembly.
